

# DAKOTA WHISKEY RUN

aka Dakota Carrere Nelson

March 06, 2003 - July 10, 2015

This morning at 9AM our beloved canine son, companion and best friend Dakota left us to play at the Rainbow Bridge. To say Dakota will be missed is a tremendous understatement. Dakota brought joy, happiness, peace and love to everyone he encountered in his twelve and half years on this earth. He served as one of the youngest Therapy Dogs at University Hospital in Cincinnati, starting at just 8 months old and serving for several years in the Intensive Care unit, bringing love and joy to those who were seriously ill and for their families seeking some peace and love in the chaos of their family crisis. His favorite treat was Graeter's vanilla ice cream...the treat he always enjoyed after a hard day's work at the hospital. He loved swimming, fishing, and hiking but we believe his favorite jobs were Chief Canine Officer and Assistant General Manager at the Millennium Cincinnati Hotel greeting guests and going to Staff meetings, and his Dad's "right hand" at the office where he loved being in the center of his Dad's workplace. Dakota was a dedicated, loyal, loving companion and, pack leader to his four siblings, and we feel he can never be replaced.

For all those who loved Dakota over the years, we thank you. For those who helped Dakota through the years we thank you. And for Dakota's Vets and their technicians who always took such great care of our special boy, we thank you the most for your dedication to his long, happy life.
