Dear Chris, Taylor & Dr. Haylett,

I am Todd's representative payee here in Marin County. Todd's finances are rather tight here. He has only \$43.00 a month spending money, and since he smokes, that leaves next to nothing for other spending money. Until we receive some insurance money (I believe there is \$2-3,000. expected.), I am hoping that it is possible for each of you to send about \$20.00 a month to supplement his very small allowance. If you are able to do so, then we can increase his spending money from \$43.00 a month to \$20.00 or \$25.00 a week.

Todd's SSI is usually increased by a very small amount each January, but the facility also raises their fees each January, so this tight financial situation is likely to continue, with the exception of the insurance money serving this supplemental purpose for approximately four and one-half years.

Please be careful *not* to send more than a total of \$85.00 from all three of you because then Social Security would *decrease* his benefits. It is a constant struggle for anyone to survive on the small amount SSI provides. Your help and understanding will be much appreciated.

Thank you,

RE: Todd J. Vaughan, supplemental allowance

Dear Ms. Behun,

Thank you for your note of April 26 regarding my brother Todd's financial situation. As Todd's representative payee, you have recommended that I send to his account \$20 each month to supplement his spending money until our late father's estate is settled.

Please find enclosed two checks, each in the amount of \$20.00, payable to Todd J. Vaughan to help him along during the months of May and June. Please note that the June check is not a valid instrument before 6/1/02, so I would ask you to hold it for him until June. By that time, I would hope that my brother, Chris, has sorted out the insurance claims and has made other suitable arrangements with you for supplemental help for Todd.

Thank you for letting me know how I can help.

Sincerely,

Taylor Vaughan

Hi Tracy -

This brings us up to date on your loan from TJV Trust - I will figure you want to continue this way.

So, after you now the Prudential loan will be $621.33 + 108.16 + \text{interest on the } 621.33 @ 7\%$.

Hey, I hope you are following the "Dr Elizabeth" show. Her website is more special - we taped the T.V. show today - will send it home if you want!!!
